01 Hybrid Learning Environment

Educational institutions such as secondary schools and universities need different types of spaces for various learning methods. Teaching spaces, meeting places for students and teachers, spaces for individual study or team tasks; each activity demands extensive flexibility of the learning environment and the furniture.

Ahrend is keen to use its knowledge of hybrid working and learning environments to assist any educational establishment and helps to develop different types of spaces in which to study, collaborate, share or transmit information. The Ahrend Grow Collection is a comprehensive and broad series of lesson sets for all kinds of educational activities.

Comprehensive Collection

Our comprehensive collection of educational furniture responds to the growing demand for diverse forms of teaching, knowledge sharing, collaborating and studying. Various types of desks and seats support students and teachers literally and figuratively in every activity.

Small desks and comfortable chairs for classical education or mobile folding tables with height-adjustable chairs for collaborating. Everything is designed so as to fit together in terms of design and colour. That's how you make your learning environment dynamic and maintain unity in diversity. In this way Ahrend Grow offers peace and concentration in every learning environment.

02 Student-proof

Ahrend Grow is designed for intensive use. Our designers have used smart solutions and high-quality materials in the design to ensure that the lesson set lasts a long time and is easy to maintain and simple to use.

For example, all of the chairs have a hand grip which makes them easier to move around. Special leg caps protect the floor from scratches.

All tables have solid frames and are always stable. For tables, there is a wide choice of different tabletop types and sizes.

The entire Ahrend Grow Collection is EN 1729 certified. This means that all the lesson sets have a guaranteed strong construction. Furthermore, all of the materials in the lesson sets are comprehensively tested for intensive use. Even so, in the case of damage we can easily repair or replace a component.

*Smart solutions and
high-quality materials
ensure a long life.*

03 Ahrend Grow Collection

For a hybrid education setting, the Ahrend Grow Collection comprises a complete education range. The lesson sets help achieve pleasant acoustics in any educational space.

Lesson sets

- › various types of tables
- › various types of chairs

Ahrend Grow Stool

Dynamic Seating

Research increasingly shows that switching between sitting and standing at work is very healthy. Not only does it keep us fit, it increases productivity too.

The teacher table and seat are designed to provide a natural overview of the space. The tables and chairs are easy to adjust in height, so everyone always has a bespoke workstation.

The Ahrend Grow Stool stools are available in a range of heights and perfectly match the tables in the **Ahrend 314 Collection**.

Grow Work High & Move

* The Grow Work High chair is available on request

** The Grow Move sit/stand table is available as standard in 08 Aluminium (ZG)

Grow exam table

The Ahrend Grow exam table has a monitor that can be elevated from the rear of the table using an ingenious lift system. The Ahrend Grow Collection is multifunctional and ideal for hybrid education.

Specifications

- › Fitted with lift for monitor (max 23 inch), electrically operated
- › Top has enough room for keyboard and mouse
- › Measurements: 80x66 cm and 75 cm high
- › Steel frame in various paint colours
- › Rear of top can be opened with master key, space for mini PC

04

Sustainable and social

Where working method and production technology are concerned, the Ahrend Grow Collection complies with the strictest standards in the market. We work in accordance with ISO standards 9001 (quality management system) and 14001 (environmental management system).

Manufacturer Gispén (a sister company of Ahrend) is ISO 9001 certified and works entirely in accordance with the principles of ISO9001-2015 and ISO14001-2015. The NEN-EN 1729 school furniture standard applies to the production technology. Gispén also holds a PSO-30+ certificate (More Social Entrepreneurship Performance Ladder). This means that we accept our social responsibility and are committed to more sustainable workstations for people with high labour market vulnerability.

05

Materials

The many options available for tabletop materials, seat and paint colours mean that you can have the tables and chairs made entirely to your wishes. As such, they will always suit the look and feel of your office environment.
